

BUS BOSS EASTER ISLAND

Easter Island is one of the most remote, inhabited places on earth, lying 2000 miles away from the nearest Continental Land, in the Pacific Island. The Island is a special territory of Chile, belonging to the province of Valparaiso, and is famous for its enormous stone heads (*Moai*). It has a population of 8000 people, almost all living in Hanga Roa; 45% identify as Rapa Nui of Polynesian descent.

This map was designed by Jim Reader in Autumn 2019 using a large-scale tourist map bought on the island. The Island has few roads, so this map has used many hiking routes for the game. Most of the locations are key tourist sites, not towns or villages. Bus Boss is a game by David Watts
