

# BUS BOSS - IZU HONTO MAP

♥ Ferry to Shizuoka (Toi or Shimoda)

The Izu peninsula is about 200 miles from the greater Tokyo metropolis and so a popular destination for Japanese on vacation or weekend break. The peninsula is characterized by great beaches, good diving in Atami bay, views of Mount Fuji and plenty of hot spring resorts (*onsens*). The region is also one of the main areas for the growing of *wasabi* (horse radish). I visited Izu twice and travelled both times mainly by bus, so have good experience of the bus network there.

Bus Boss was developed by David Watts and published by Rostherne Games. This map was designed by Jim Reader in March 2009, using two Japanese language tourist brochures and the 2005 Shibussha Road Atlas of Japan (English Edition).
