 Wester Duinen, De Geul)

BUS BOSS - TEXEL

Texel is the largest of the Wadden islands and also the closest to the Dutch mainland, a short 20 minute ferry crossing from Den Helder. It is a popular destination for Dutch holiday-makers with a nice mix of sandy beaches, duneland scenery and sports activities. It takes about one day to cycle around the island. There are four bus routes on Texel, although this map has been adapted to include walks from bus stops to particular nature areas.

This map was designed by Jim Reader between January and July 2003 and is intended for 4 players only. Bus Boss was designed by David Watts and is published by Rostherne Games.
