This map has been designed from the Snel State map of Oregon published by R.R. Donnelly & Sons in 1969. It was during this year that I paid my only visit to this beautiful State; any differences between this map and present day Oregon are due to laziness and a sense of nostalgia. In 1969, the State Capital of Oregon was Salem, the State Bird was the Western Meadowlark, the State Flower the Oregon Grape and (unfortunately) the States nickname was the Beaver State. Much of Oregon is mountainous and many of the mountain areas marked are where mountains rise out from a high level plateau.

Connections into other states are not to a specific hex, but lines must cross the border (paying 3 to cross a river if necessary). This map is intended for 3 - 4 players; start towns are Portland (2 players), Roseburg and Pendleton.
