

by Richard Smith 2020

Notes: Swamp costs +1 per half hex to build, no effect on races. The ferries to Roatán cost 6 to build and 5 to use (one off die roll to embark or disembark). 6 units are awarded for the first connection to Roatán which cancels the cost of the ferry. Building a bridge to El Tigre incurs the normal cost of 3. Italic town numbers indicate half-towns, 3 for connecting, race to either hex.
