

Azerbaijan v1.5

Railway Rivals Map

by Richard Smith 2024

For 3-4 players. Start at Sumgait, Jalilabad, Shirvan or Mingachevir. Only one company per town.

Special Runs 1: Iran; 2: Turkey; 3: Armenia; 4: Georgia; 5: Russia; 6: Caspian Sea via Sumgait, Baku, Alat or Lankaran.

Notes:

Connections to other countries can only be made at the hexes marked with a star symbol.

Until very recently, there were no rail connections to Armenia, but now there are link points and permitted builds using the orange hexes for connecting Nakhchivian. Companies must pay Armenia 0.5 per half-hex from funds (not build allowance) but there are no fees for parallel builds on orange hexes.

The disputed territory of Nagorno-Karabakh contains a number of towns that are currently unoccupied. There are no extra costs for building through its green hexes.

Only the Kura and Araz rivers are wide enough to require significant extra cost to cross so others are not shown.
